LETTER OF DEFICIENCY #WSEB 06-093
Certified Mail #7099 3400 0003 6156 5200

Bryate Woody
Lamington Hill Home Owners Assoc.
4 Lamington Hill Pl.
Stratham, NH 03885

Subject: Stratham - Public Water System: Lamington Hill (EPA #2232170)

Dear Mr. Woody:

The records of the Department of Environmental Services (DES) show that the subject water system is classified as a public water system (PWS), as defined by RSA 485:1-a. A PWS is defined as any water system supplying 15 or more service connections, or 25 or more people, for 60 or more days per year. As such, the owner of the water system is required to comply with NH Administrative Rule Env-Ws 300, *New Hampshire Drinking Water Rules*.

PERMIT TO OPERATE

Pursuant to Env-Ws 303.03, the water system owner is required to obtain a "permit to operate" from DES. This permit must be renewed by July 1st of each year.

According to Env-Ws 303.03(e) the permit to operate for community water systems is calculated at \$10 per service connection or household equivalent, to a maximum of \$300.00. DES records show that the PWS has failed to pay for and obtain a permit to operate for state fiscal year 2007, which began July 1, 2006, and is, therefore, in violation of Env-Ws 303.03.

DES believes the permit to operate violation can be corrected by taking the following action:

1. **By September 1, 2006, complete the permit application, make any necessary corrections to the "Contact Information Report," and pay the outstanding permit to operate fee of \$140.00 for state fiscal year 2007.**

For your convenience, a new permit application and Contact Information Report are enclosed. **Please review both documents, make any necessary corrections, and sign the application.** Checks should be made payable to "Treasurer, State of New Hampshire." Please include your system's EPA number on the check. Please contact Linda Thompson at (603) 271-3544 or by email at lthompson@des.state.nh.us, if you have any questions regarding the permit to operate renewal process.

CONSUMER CONFIDENCE REPORT

Pursuant to Env-Ws 352, the water system owner is required to issue to the system's customers a Consumer Confidence Report (CCR) by July 1st of each year. Env-Ws 352 also requires the system owner to forward a copy of the CCR to DES by July 1st of each year and to submit certification of the CCR to DES by October 1st of each year.

DES records show that the subject water system failed to prepare and deliver the 2006 CCR to customers and DES by July 1, 2006. The failure to prepare and deliver the 2006 CCR places the water system in violation of Env-Ws 352.

DES believes the CCR violation can be corrected and future violations prevented by taking the following actions:

2. **By September 8, 2006, prepare and deliver to the water system's customers and DES the 2006 Consumer Confidence Report containing calendar year 2005 drinking water information; and**
3. **By October 1, 2006, submit to DES the 2006 CCR certification.**

A CCR template with instructions is available for downloading free of charge at www.des.state.nh.us/wseb/ccr.htm. If your system uses the state laboratory, laboratory results are available from this website also. Please contact Richard Thayer at (603) 271-2950 or by email at rthayer@des.state.nh.us, if you have any questions regarding the preparation and certification of the 2006 CCR.

In addition, as specified in the Notice of Violation dated July 17, 2006, public notice to all consumers for the second quarter Arsenic maximum contaminant level violation is due to this office by August 27, 2006.

In the event compliance is not achieved within the above listed period(s), DES may take further enforcement action. These actions include issuing an order requiring the deficiencies to be corrected, initiating an administrative fine proceeding, and/or referring the matter to the NH Department of Justice for imposition of appropriate penalties.

All the above requested information should be addressed as follows:

Department of Environmental Services
Attn: Emily Jones
Water Supply Engineering Bureau
29 Hazen Drive, PO Box 95
Concord, NH 03302-0095

If you have any questions concerning this letter, please contact Emily Jones at (603) 271-0659 or by email at ejones@des.state.nh.us.

Sincerely,

Sarah Pillsbury, P.G., Administrator
Water Supply Engineering Bureau
